

Roland Hamilton Good

(1923 -)

Ph.D. Michigan 1951 ¹

Dissertation: On the theory of forbidden beta-transitions. ¹

Advisor: George Eugene Uhlenbeck ¹

Student: James Ricker Wilson ²

Notes:

¹ Good, R. H. On the theory of forbidden beta-transitions. Ph.D. Thesis, University of Michigan, 1951.

Committee in charge:

Professor G. E. Uhlenbeck, chairman

Professor E. F. Barker

Professor O. Laporte

Professor G. Y. Rainich

Associate Professor M. L. Wiedenbeck

"It is a pleasure to thank Professor G. E. Uhlenbeck for directing my work on these problems."

² Wilson, J.R. Some problems in meson theory. Ph.D. Thesis, University of California, Berkeley, 1952.

Committee in charge:

Doctor Roland Hamilton Good, Jr., chairman

Associate Professor William A. Nierenberg

Associate Professor David Harold Sloan

"In addition to Doctor Good under whom the work was completed, I wish to thank Doctor Lee who suggested the first problem and provided the equations of motion, and Professor Wick who suggested the second problem."
