

Michael Joseph Longo

(1935 -)

Ph.D. California 1961 ⁵

Dissertation: Nucleon and nuclear cross sections for positive pions and protons above 1.4Bev/c. ⁵

Advisor: Burton Joseph Moyer ⁵

Student: David Lyle Burke ^{1,2,3,4}

Notes:

¹ Burke, D.L. Particle production from neutron-nucleus collisions at Fermilab energies. Ph.D. Dissertation, University of Michigan, Ann Arbor, MI, 1978. (Michael J Longo, chair; Henry C Griffin; Lawrence W Jones; Marc H Ross; T. Michael Sanders)

² Email communication with DL Burke (8 Aug 2001)

³ Email communication with LW Jones (30 Aug 2001)

⁴ Email communication with MJ Longo (31 Aug 3001)

⁵ Longo, M. J. Nucleon and nuclear cross sections for positive pions and protons above 1.4Bev/c. Ph.D. Thesis, University of California, Berkeley, 1961.

Committee in charge:

Burton Jones Moyer, chair

Thomas H. Pigford

Kenneth M. Watson

"I particularly wish to thank Professor Burton J. Moyer for his aid and guidance in all phases of the experiment and the members of the group under his direction for their generous assistance."
